PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years of experience delivering scalable, production-grade web applications in fintech and e-commerce. Expertise in React.js, GraphQL, TypeScript, and Node.js with a strong focus on performance, reusable systems, and cross-team product delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, AngularJS, TypeScript, JavaScript, TailwindCSS, SCSS, HTML, CSS

Backend: Node.js, GraphQL, REST APIs, Firebase, PostgreSQL, GCP Datastore/Firestore

State: React Query, Apollo Client, Redux, Auth.js

Tools: Git, Storybook, Datadog, Figma, Webpack, Vite, Jest, CI/CD

AI: AI-assisted development (Claude, ChatGPT), Prompt Engineering, Code Generation

WORK EXPERIENCE

Senior Software Engineer

Jun 2023 – Present

Aspire (Remote)

Fintech SaaS • React.js, TypeScript, GraphQL, Node.js, Storybook, Datadog

- Engineered a no-code automation builder enabling non-technical users to create workflows, significantly reducing operational dependency and automation turnaround time.
- Built and scaled an affiliate sales tracking system covering referrals, commission calculations, and reporting, improving financial visibility.
- Led full frontend product revamp from legacy UI to modern architecture, ensuring feature parity and improving user experience.
- Designed and scaled a Storybook component library adopted by 3+ teams, reducing UI development time by 30%.
- Architected modular React.js + GraphQL systems, reducing redundant code and accelerating feature delivery by 25%.
- Resolved 2000+ production issues and introduced Jest-based testing, improving stability and reducing user-facing disruptions.

Frontend Developer

Mar 2022 – May 2023

CommerceUp

Gurugram, India

E-commerce SaaS • React.js, TypeScript, REST APIs

- Reduced page load time by 35% using lazy loading, code splitting, and optimized API integrations across product and checkout flows.
- Built a reusable component system across 4+ modules, improving maintainability and reducing development effort.
- Collaborated with product and design teams to deliver pixel-perfect UI aligned with Figma designs.

Frontend Developer

Oct 2020 – Mar 2022

Meau.in

Noida, India

Client Applications • HTML, CSS, JavaScript

- Delivered responsive and accessible UI across 5+ client projects by translating Figma designs into production-ready interfaces.

- Improved UX consistency by collaborating with design and product teams, reducing revision cycles.

PROJECTS

Routinely — Full-Stack Habit Tracker

Next.js 15 • TypeScript • Tailwind CSS • Auth.js • PostgreSQL

- Built SSR-based habit tracking dashboard enabling fast navigation and seamless UX.
- Designed scalable PostgreSQL schema for habits, streaks, and challenge tracking.
- Implemented gamification logic (XP, levels, streaks) to improve engagement and retention.

College Social Network

- Built a secure, college-only platform with institutional authentication.
- Implemented engagement-based ranking (likes, views) to highlight top creators.

EDUCATION

B.Tech, Computer Science

Gandhi Institute for Technological Advancement

2017 – 2021

CGPA: 8.0 / 10
